

## Diverse Electronics Authorized for Diotec Semiconductor

**Diverse Electronics** is pleased to announce it is now an authorized distributor of **Diotec Semiconductor**, a global leader in semiconductor solutions for more than 50 years. Diotec manufactures a wide array of diodes, rectifiers, transistors and ESD-protective components. Headquartered in Germany with offices in the U.S., the company is able to offer full local support, highly competitive pricing, and better-than-industry standard lead times.

“Diotec is an excellent semiconductor partner for Diverse,” said Rick Masciotra, President and CEO of Diverse Electronics. “Not only are they market leaders and industry specialists, Diotec is entirely service-oriented. They guarantee a one-day response turnaround and a 95% on-time delivery rate, paralleling Diverse’s quality service standards.”

Diotec manufactures a full complement of diodes, rectifiers, MOSFETs, regulators, transistors, and TVS/ESD circuit protection diodes. They also offer a broad lineup of industrial/commercial and automotive-grade products. These products address a wide range of applications across Industrial, Consumer Electronics, and Automotive markets, with a focus on Lighting, EVs / E-Mobility, IoT, and Energy sectors.

### About Diotec

Founded in Heitersheim, Germany in 1973, Diotec has been a specialist in semiconductor solutions for more than 50 years. The company has expanded to four manufacturing facilities on three continents, and a network of global sales offices and distribution partners. In addition to its catalogue of diodes, transistors, MOSFETs and voltage regulators, the company also offers customizable chip, package, and lead configuration solutions. Diotec attributes much of its success to product reliability and a strong focus on service and innovation.

### About Diverse Electronics

Diverse Electronics is an ISO 9001:2015-certified authorized stocking distributor of electronic components, production floor consumables, tools and equipment, and industrial components. Diverse distributes products from an extensive range of world-class manufacturers, resulting in the largest available inventory in Canada. The company also offers flexible material management programs to help customers address the industry’s rising material acquisition and holding costs. Founded in 1993, Diverse recently celebrated its 30th anniversary.
